Advertisements

Description:

Xootic offer its sponsors the possibility of buying advertisement space: in the newsletter and in the magazine.

The newsletter is a pdf-mailing (per e-mail) with which all Xootic members are kept updated about the activities and events happening in their association. The newsletters are only distributed amongst Xootic members. Given the nature of the newsletter the allowed advertisements are (low-res) black & white or color and restricted to a maximum A6 format size.

The magazine is glossy publication of Xootic, which is developed by means of a series of articles. For the magazine, the advertisements can be either in black & white or color and it should be restricted to maximum size of A4 portrait size format.

Procedure:

The initiative for using/buying the advertising space always comes from the partner. Xootic has the responsibility to inform the partners on a periodic basis about the services and opportunities that they can exercise. Furthermore, the partners can specify the edition of the magazine/newsletter in which they expect their advertisement to appear.

The advertisement can be sent to the mail address mentioned below (preferably on CD or USB stick) or by means of e-mail to secretary@xootic.nl.

Mailings

Description:

There are two possible ways to use the “direct mailing” service: Normal post or e-mail. The initiative for using the service comes from the partner. Xootic informs and reminds the partner about their opportunities to use the service on a periodic basis.

Procedure:

The partner has the responsibility to provide the needed material/stationery/pre-stamped envelopes for the mailing. In case of normal post, the sponsor sends the package (the content together with the pre-stamped envelopes) to Xootic (to the “Postal address”) and Xootic takes care of the distribution of the mails.

In case of electronic mailing (e-mail), the partner sends the desired content to secretary@xootic.nl and Xootic takes care that the content is channeled to the members of Xootic (via the Xootic mailing list). In case the e-mail carries an attachment, the size of the attachment may not exceed 250kB.
